Flexport lets AI agents book freight – who signed the contract? · 9/10 High

The Loadstar · 06 Oct 2026 04:13 MST

In a nutshell: Flexport's new MCP server lets shippers' own AI agents book freight at negotiated rates without anyone logging in. US contract law, and Flexport's freshly revised platform terms, put the bill for a wrong booking on whoever plugged the agent in. Last week, Flexport launched a Model Context Protocol (MCP) server that lets AI agents book freight, track shipments and pull quotes on its platform, with shippers connecting Claude, ...
