Tractor Supply opens Idaho distribution center with automation, dedicated AI team · 10/10 High

Supply Chain Dive · 07 Oct 2026 07:15 MST

The retailer's site in Nampa will distribute inventory to 123 stores and includes a group that aims to "apply practical artificial intelligence to operational needs."

Why a customer might call: the score weights technology novelty, capital or operating-model stakes, and fit with AI execution, 3PL data, automation, or network design.

AI and data centre boom still driving increased global airfreight traffic · 10/10 High

The Loadstar · 07 Oct 2026 04:19 MST

Japanese airfreight exports are forecast to rise 11.9% this year, driven in part by a surge in semiconductor-related cargo, as investment in AI and data centres accelerates. In its latest analysis, NX Logistics Research Institute expects airfreight exports from Japan to reach 1.13m tonnes in FY26, marking the third consecutive year of growth and the first double-digit increase in five years. Total airfreight, including imports, is forecast to rise 6.8%, to 2.41m ... The post AI and data centre b

\$100B Trade Gap: China vs. US Data Exposed · 9/10 High

FreightWaves · 06 Oct 2026 13:41 MST

A staggering \$100 billion discrepancy exists between China's reported exports and the US's recorded imports. Michael Kanko, CEO of ImportGenius.com, explains what this trade data delta signifies for the global supply chain. He details how granular shipping records are used for everything from sourcing new components to ensuring compliance with international sanctions, and why transparency [...] The post \$100B Trade Gap: China vs. US Data Exposed appeared first on FreightWaves .
